

Welcome

Coach Gio

What Will We Learn Today?

Our Lab Rules

What Is in Our Lab?

What tools and machines are in the lab

How to use the student portal

How the 3D printer and laser cutter
queue works

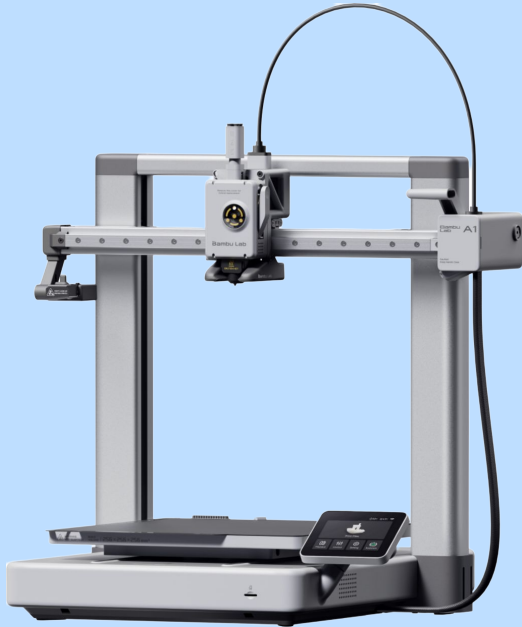

Class Points

Our Lab Rules

1. Respect people, tools, and materials.
2. Ask before using machines.
3. No running in the lab.
4. Clean your area before leaving.
5. If something breaks, tell an instructor.
6. Mistakes are okay — hiding them is not.

WORK PHOTO

DATE	ACTIVITY / ASSIGNMENT	SHEET	STATUS
Jun 29 W1 · Mon	Project: build the TALLEST free-standing tower you can. First we learn the names of our two most important pieces — beams and pins — then engineers race to reach the sky without tipping over. Build: Tallest Tower	No sheet needed	To do Begin Lesson
Jun 30 W1 · Tue	Project: engineer the STRONGEST bridge across a gap. We discover why triangles beat squares, then test each bridge with weights to see how much it can hold before it bends. Build: Strongest Bridge	No sheet needed	To do Begin Lesson
Jul 1 W1 · Wed	Project: build a car powered by nothing but a balloon. We learn how wheels and axles turn air into motion, then race to see whose car rolls the farthest. Build: Balloon-Powered Car	No sheet needed	To do Begin Lesson
Jul 2 W1 · Thu	Project: build a catapult that launches a soft target. We learn how a lever and stored energy work together, then aim for distance and accuracy in a friendly launch-off.	No sheet needed	To do Begin

2026-06-11

Welcome to Summer Camp 2026!
This hub is your home base for the whole summer — check it each morning to see what we're building and learning that day.

2026-06-11

First day is Monday, June 29
Camp runs Monday through Thursday. Bring a water bottle and your curiosity — we start with the SPIKE Prime kit on day one!

2026-06-11

Coach prep checklist
Charge all SPIKE Prime hubs, verify the build instruction stations, add camper accounts in the Students tab, and fill in the open days for Weeks 7-8 in the schedule editor.

● Week 1 · Monday: Tallest Tower is live

What Is the Machine Queue?

1. Submission

Students submit machine requests in the portal.

2. Review

Instructors review files before machines run.

3. Organization

The queue keeps turns fair and organized.

Why use a queue?

- No crowding around machines
- No random printing or cutting

Classpoints

Rules & Redemption

- Everyday students can lose or win points
- Points can be cashed in for prints
- Points can only be redeemed on Thursday

Prizes & Rewards

Items you can win:

- 3D prints: More points = bigger prints
- Custom prints: Require a lot of points

Positive Skills
Give you more points

Negative Skills
Give you less points

Easy Way to get point

Assignments

Completing an assignment and submitting a picture will get you points.

Participation

Answering questions will get you points.

Speed Bonus

The first person to answer questions will get you even more points!

Pro Tip: Stay engaged and be quick to maximize your Classpoints every session!
